About Our Coffee

Our famous and unique blends are roasted just a few blocks away. We have been providing fresh roasted coffee to Staunton and beyond for almost 25 years, and have perfected the art of roasting to bring you the best experience possible.

We believe that coffee is more than just a beverage, it is a way of life. We source our beans from the best coffee growing regions in the world and roast them to perfection to bring out their unique flavor profiles. Our coffee is made with care and attention to detail, so that every cup is a perfect balance of aroma, taste, and body.

We care about the environment and the people who grow our coffee. That's why we source our beans from ethical and sustainable sources, and work with our partners to ensure that the farmers who grow our beans are treated fairly and paid a fair wage.
